

The logo consists of the letters 'S' and 'P' in a bold, stylized, black font. The 'S' is on the left and the 'P' is on the right, both with a slight shadow effect.

Blast Plug BP51

Sport Bluetooth Earphones

Getting Started

How to Connect

Please be patient as your first time pairing will take slightly longer than usual.

Step 1 – Activate Pairing Mode

When BP51 is OFF: Press and hold the Multifunction Button (MFB) until the LED indicator flashes from blue to red alternately.

When BP51 is ON: Press the MFB twice until the LED indicator flashes from blue to red alternately.

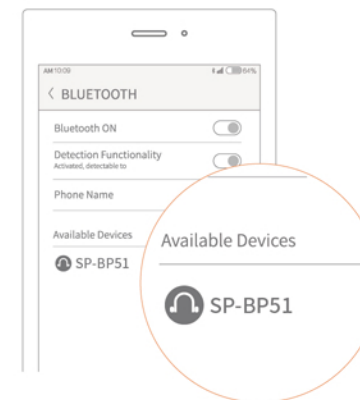

Step 2 – Enable Bluetooth

Ensure that your preferred listening device (Phone, computer, etc.) is powered on, Bluetooth enabled, within range*, and ready.

Step 3 – Connect to Earphones

Select "SP-BP51" on your device and you'll hear a voice confirmation that you're connected. Your BP51s will disconnect when you're too far away* from your Bluetooth device or are inactive for more than five minutes.

*Wireless range is 10 meters and may vary depending on surroundings.

On cellphone, search for "SP-BP51" and tap to connect.

How to Charge

Low battery is indicated by red blinking LED and voice prompt. LED will be solid red when charging, and turn blue once fully charged.

Functions

Answer Call 📞

Press MFB to answer incoming call(LED blinks blue promptly).

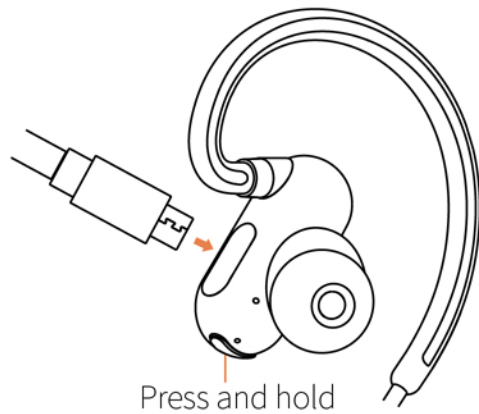

Last Number Redial 🔄

Double press MFB when standby
Notes: last number dialing out may vary with different cellphones.

Default setting

Hold and press MFB until LED blinks red and blue when charging.

Ignore Call 📞

Press and hold MFB for 1 sec to ignore incoming call(LED blinks blue promptly).

Mute on/off 🗣️

Double press MFB to activate mute on/off when calling

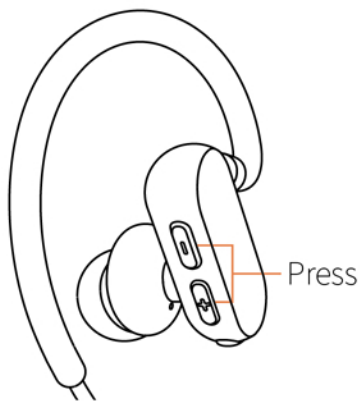

Skip Track ▶▶

When playing music, Press and hold Vol+/- to skip track forward/backward.

Volume Control 🔊

When playing music or calling, press Vol+/-.

Play/Pause ▶||

When standby, press MFB to play/pause music

Voice Assistant 🗣️

Press and hold MFB for 1 sec to activate Voice Assistant (like Siri)

Switch Audio Output Between Earphone and Cellphone ↻

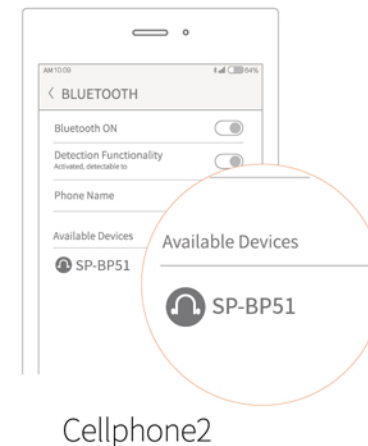

Press MFB and hold for 1 sec when calling

Multi-point Connection

1. Please refer to “How to Connect” and pair it with phone1, then turn off the Bluetooth earphone.
2. Press and hold MFB until LED blinks red and blue. On phone2, search for SP-BP51 and press to connect.

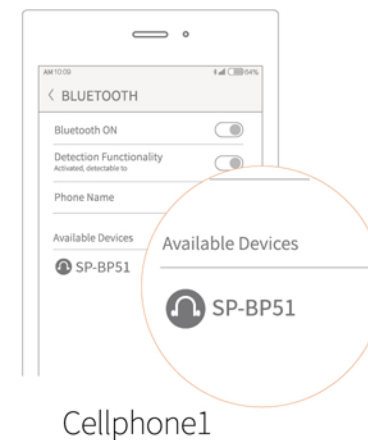

3. Back to phone1, search for SP-BP51 and press to reconfirm connection. Now you've finished Multi-point Connection.

Three-Way Calling and Switch Between Two Calls

Press MFB to answer incoming call on phone1. Meanwhile, if there is another incoming call on phone2, press MFB to activate call on phone2 while putting the first call on hold. Double press MFB to switch between active and held calls.

Functions

Tips

1. Please read this manual carefully prior to using the device and keep the manual properly.
2. For first time use, please fully charge both cell phone and earphone. The LED will indicate a solid red if the earphone has low battery and cannot be powered on.
3. Please be sure that your Bluetooth earphone is in "pairing mode" if it cannot be spotted on your cell phone. The device will exit "pairing mode" if unpaired or unconnected for a long time. Then you may need to set it to "pairing mode" again. If any error occurs in cell phone or this device, please restart your cell phone or earphone, or reset earphone to its default setting.
4. Low battery is indicated by red blinking LED and voice prompt. LED will be solid red when charging, and turn blue once fully charged. The charging time is around 2 hours. Please note: Bad contact caused by improper operation or other reasons may switch off the LED light even when charging, which will result in incomplete charge. So please plug in the USB charger properly and keep the device stable while charging until it is fully charged.
5. This earphone cannot connect via Bluetooth while charging.

Warnings

1. Never disassemble or modify your Bluetooth earphones for any reasons to avoid any damage and danger.
2. Do not store the Bluetooth earphones in extreme temperatures (under 0°C or over 45°C).
3. Avoid using the indicator close to the eyes of children or animals.
4. Do not use this Bluetooth earphone during a thunderstorm to avoid irregular function and increased risk of electric shock.
5. Do not use harsh chemicals or strong detergents to clean the Bluetooth earphone.
6. Keep the Bluetooth earphone dry. Caution: Please arrange usage time properly, as long time use can damage hearing.
7. If the cap is not closed completely, the water resistant performance may deteriorate and cause a malfunction.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules . These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and , if not installed and used in accordance with the instructions, may cause harmful interference to radio communications . However, there is no guarantee that interference will not occur in a particular installation . If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference ,
and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NCC Statement

Administrative Regulations on Low Power Radio Waves Radiated Devices warning:

Article 12 Without permission granted by the NCC, any company, enterprise, or user is not allowed to change frequency, enhance transmitting power or alter original characteristic as well as performance to a approved low power radio-frequency devices.

Article 14 The low power radio-frequency devices shall not influence aircraft security and interfere legal communications; If found, the user shall cease operating immediately until no interference is achieved.

The said legal communications means radio communications is operated in compliance with the Telecommunications Act. The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices.
